

Be a part of the Redondo Beach Bluffs Project!

**Join us on Sunday,
March 12, 2006 at 9AM**

Volunteers of all ages and abilities are invited to help SEA Lab restore these bluffs. As long as you can show up ready to enjoy the sun and get a little dirty, they'll be gloves for you to wear, native plants to plant, and a bunch of weeds to pull!

We'll meet at 9AM under the big blue tent between Avenue I and Vista Del Mar. For more information or to RSVP, call Monica Acosta at 310-318-7411.

The more volunteers, the merrier. Please remember to bring a hat, a bottle of water and sunscreen.

About the SEA Lab, a program of the Los Angeles Conservation Corps (LACC)

The SEA Lab is a hands-on coastal science education center that offers free and low cost programs for children of all ages to enjoy. College-aged students trained by LACC lead the activities, including beach explorations, touch tank tours and interactive classroom lessons. The SEA Lab extends its programs into the community through summer camp programs, community service projects and the Traveling Tidepool mobile exhibit. For more information, visit www.lacorp.org and click on "SEA Lab."

About the Redondo Beach Bluffs Restoration Project

The goal of the Redondo Beach Bluffs Restoration Project is to return a diverse community of native shrubs and wildflowers to the coastal bluffs along Redondo's shore. Native shrubs and wildflowers are adapted to Southern California's climate, and therefore require less maintenance and water. They also attract wildlife, beautify the landscape, and stabilize the slope better than exotic species.

The Stewards of the Bluffs Program is aimed at maintaining this project through weeding, litter removal, and some planting and seeding. Each Saturday, from 9AM-2PM, volunteers are invited to join the SEA Lab in these activities. People of all ages and experience levels are invited. All you need to bring is a concern for the environment and a willingness to get your hands dirty. We meet each week under the big blue sign between Avenue I and Vista Del Mar, so come on down and join in -- and don't forget a bottle of water, a hat and sunscreen!

For more information or to RSVP, please call Monica Acosta at 310-318-7411.
